

400-420W

SK9609M(HV)C-U

MONO 10BB Half-Cut Bifacial Module

Half-Cut technique leads to increased power output

Compared with the whole cell, the current of half cell is halved, the heat loss is reduced, the hot spot temperature is reduced, and the power can be effectively increased.

Series-parallel wiring mode results in reduced shading loss

Series-parallel wiring will not only reduce power lows from shade but also improves the effective use of supports and space.

Excellent temperature performance

The temperature of HC module is 1.6 °C lower than that of the conventional module under the same working condition, which results less power loss.

Reduced encapsulation loss due to reduced current

HC module is of lower current and lower CTM loss at around 0.2%.

LINEAR PERFORMANCE WARRANTY

15 years

Product warranty on materials and workmanship

30 years

Linear power output warranty

CERTIFICATES

ISO 9001: 2015
Quality Management System

IEC 61215 / IEC 61730 / UL 61730

ISO 14001: 2015
Environmental Management System

ISO 45001 : 2018
